- Responsive sidebar dashboard layout
- Smooth animations and transitions

3. Getting Started

3.1 Creating an Account

1. Go to the Lokal homepage.
2. Click Get Started or navigate to the Sign Up page.
3. Fill in your Full Name, Phone Number (optional), Email, and Password (minimum 6 characters).
4. Click Create Account.
5. A profile will be created automatically with the Applicant role.
6. Sign in with your email and password to get started.

3.2 Logging In

7. Click Sign In on the homepage.
8. Enter your email and password.
9. Click Sign In.
10. You will be redirected to your dashboard — Find Jobs for applicants,
Admin Dashboard for admins.

3.3 Forgot Password

11. Click Forgot Password on the Sign In page.
12. Enter your Phone Number.
13. Click Send Verification Code.
14. A 6-digit code will be sent. (During testing, the code appears on screen.)
15. Enter the code and click Verify Code.
16. Set a new password and confirm it.
17. Click Reset Password.
18. Sign in with your new password.

4. Building Your Profile

Your profile is how employers evaluate you. To edit it:

1. Sign in and navigate to My Profile in the sidebar.

2..Click the profile photo area to upload a picture.

3. Update your details:

- Full Name
- Phone Number
- Location (e.g., Toledo City, Cebu)
- Skills (comma-separated, e.g., Customer Service, Sales, Communication)
- Resume Link (Google Drive URL)
- Bio / About Me

4. Click save Profile

Tip: A complete profile with skills and a resume significantly improves your AI match scores and makes a stronger impression on employers.

5. Browsing & Applying for Jobs

5.1 Browsing & Applying for Jobs

1. From the sidebar, click Browse Jobs.
2. Browse available positions in a card grid layout.
3. Use the search bar to filter by job title or description.
4. Each card shows:
 - Job title, company, location, and salary
 - Short description
 - Required skills
 - Your Skill Match percentage (if you have skills listed)

5.2 Apply for a Job

- Click any job card to view full details.
- Review the Job Description and Requirements.
- In the Your Profile summary panel, verify your details.
- If your profile is complete, click Apply Now.
- You will see a success animation and be redirected to My Applications

You must have your full name, location, and skills filled in before you can apply.

6.Tracking Your Applications

1. Click My Applications in the sidebar.
2. View all jobs you have applied to, sorted by most recent.
3. Each application shows:
 - Job title, company, and location
 - Application status with a color-coded badge
 - Date applied
 - AI match score (if available)

4. Status meanings:

- Pending — Your application is under review
- Reviewed — An admin has looked at your application
- Rejected — You can click Apply Again to re-submit
- Hired — Congratulations! You got the position

7. Admin Tools

Admin users can access the dashboard to manage the platform

- View total jobs, applicants, and applications
- Create, edit, and delete job postings
- View AI-ranked applicant matches per job
- Approve or reject applicants
- Manage user accounts and status
- Use AI Match Scan to discover top talent
- View platform reports and analytics

To access the admin dashboard, sign in with an admin account and click Dashboard

in the sidebar.

7.1 Dashboard Overview

- View key metrics: Total Jobs, Applicants, and Applications.
- Quick-glance numbers updated in real time

7.2 Manage Jobs

- View all jobs in a table with icon, title, company, location, salary, and applicant count
- Create new jobs using the + New Job button
- Edit existing jobs (title, company, location, salary, description, requirements, icon)
- Delete jobs with a confirmation prompt
- View Applicants per job to see ranked list with AI match scores
- Hire or Reject applicants directly from the detail view

7.3 Applicants & AI Matching

- Select a job to rank all applicants by skill match
- AI analysis (via Gemini) compares each applicant's skills against job requirements
- Progress bar shows real-time analysis status
- Each applicant shows match score, matched skills, and missing skills
- Click any applicant to view full profile, AI explanation, and resume

7.4 Manage Users

- View all registered users with name, email, role, status, skills, and resume
- Approve pending users to activate them
- Delete users with confirmation prompt
- Summary stats: total users, active users, pending users

7.5 Discover Talent

- Select a job position to find matching applicants
- Click AI Match Scan to analyze all applicants against the job
- Results ranked by match score with visual indicators
- Click any applicant to view full profile and matched requirements

8. Tips & Best Practices

For Applicants

- Use a clear profile photo.
- Write a short but meaningful bio.
- Keep your skills accurate — the AI engine uses them to calculate your fit.
- Complete your profile to unlock AI matching and apply to jobs.
- Check your applications regularly for status updates.
- Re-apply if rejected — you can always try again.

For Admins

- Use AI matching to surface the best candidates quickly.
- Review the Reports page to see which positions attract the most applicants.
- Approve pending users so they can start applying.

General

- Use a modern browser such as Chrome, Edge, or Firefox for the best experience.
- All data is synced in real time — changes appear instantly.
